

BARTH SOAKING CONTAINER

The BARTH soaking tank is made of impact-resistant and noise-absorbing materials.

The four transport wheels simplify the transport. The partition wall serves for exact hose guidance and allows a capacity of 8 hoses up to size 75 mm (3") or 4 hoses up to size 110 mm (4 1/2").

In order to ensure easy draining of the contaminated water, the soaking tank has a quick-release plug with an overflow tube.

Technical Specifications

Product Code	151171
Material	stainless steel / PE
Water volume	230 l
Dimensions	990 x 400 x 805 mm

BARTH MOBILE HOSE STORAGE RACK

The BARTH mobile transport and storage rack is made of square profiles with longitudinal and cross struts. Three storage shelves are made of folded sheet metal.

Due to the stable and large construction, 18 hoses of coupling size 75 mm (3") and 21 hoses of coupling size 52 mm (2") can be stored easily.

Technical Specifications

Product Code	151405
Material	Steel, welded and hot-dip galvanized
Dimensions	1.600 x 900 x 545 mm
Weight	approx. 46 kg
